---

ON COMPREHENSIVE REHABILITATION SERVICE FOR WORKERS  
WITH PHYSICAL DISABILITIES 2018

*18<sup>th</sup> November – 1<sup>st</sup> December 2018*

Operating Organization:

Industrial Rehabilitation Centre Region 1 (IRC)

Social Security Office, Thailand

## I. PREFACE

---

The Industrial Rehabilitation Centre Region 1 (IRC) was established in cooperation with the Japanese Government and the Thai Government through the Japan International Cooperation Agency (JICA). The IRC began providing rehabilitation services for disabled workers whose disabilities derived from work accident on 1 May 1985.

One of the IRC's objectives is to help disabled workers who suffer from work-related injuries or sickness and insured persons with disabilities under the Social Security Act & Workmen's Compensation Fund of Thailand in order to enable them to re-enter the work force to work in an establishment or to be self-employed. To achieve this objective, the IRC provides comprehensive rehabilitation services: medical, vocational, and psychological rehabilitation through a multidisciplinary approach of team work.

Over the past 33 years, it has been found that the best system for helping persons with disabilities is the comprehensive rehabilitation system which has been properly implemented by the IRC. So far the rehabilitation system has successfully helped to rehabilitate over 10,000 people, about half of whom returned to their previous place of employment, about 40 percent became self-employed, and the remaining 10 percent found new jobs.

According to Strategic Plan of the Social Security Office (2015-2019) Strategic Issue ASEAN: Thailand Social Security System will be the principal and dominant part of ASEAN's Social Security Foundation. Hence the IRC plans to implement a training program for rehabilitation personnel in the Southeast Asian region in order to support and to contribute the development of human resources which will promote the advancement of developing countries. The IRC hopes to enhance its potential of becoming a comprehensive rehabilitation training Centre of this region. Therefore, it is necessary to share and exchange experiences for supporting self-help efforts that will lead to a better life for persons with disabilities in these countries.

---

### 1. TRAVEL DOCUMENTATION

Upon arrival in Thailand, participants must hold a valid passport with at least six months validity, Thai visa, and proof of onward travel. However, visitors from ASEAN Countries are not required to have a Thai visa for visits less than 30 days in Thailand. They will be granted access through Thailand immigration with a 30 Thai visa waiver, provided upon arrival. After such time, a Thai visa extension from immigration office or a Thailand visa from an embassy or consulate outside of Thailand is required. Immigration policies are subject to change: check with a Thai Embassy or Ministry of Foreign Affairs ([www.mfa.go.th](http://www.mfa.go.th)) for the latest information.

### 2. TRANSPORTATION

Upon arrival, the Industrial Rehabilitation Centre Region 1 (IRC) will provide transportation (airport-hotel-training venue-hotel-airport) for all participants. However, traveling out of the program during the training course is only allowed with special permission from the Director of the IRC or the responsible authority.

### 3. WEATHER

In November, the sun normally shines for 8 hours per day, with temperatures generally settling between 24°C and 31°C.

The daily average temperature is usually around 28°C and there's a good chance of a shower, so pack a raincoat just in case. It's warm enough to wear shorts and a t-shirt, as it still feels humid in the city. The highest ever recorded temperature in November is 38°C with the lowest being 18°C. However, temperatures normally fall within the averages for the month.

However, temperature is generally consistent with the average for each month: check with the Thai Meteorological Department([www.tmd.go.th/en/](http://www.tmd.go.th/en/)) for the latest information.
